Health Board must continue to provide a high standard of care following the 100% increase in bed number following the transfer of patients from Withybush Hospital to South Pembrokeshire	MD1/1	The patients cared for at South Pembrokeshire Hospital are under the care of a multi disciplinary team led by Health Board Consultants from Withybush Hospital. The nursing care provided is subject to All Wales Nursing Audits, as evidence for completion of these standards 2 months of audits will be uploaded to the AMAT system for assurance.	South Pems Hospital	Senior Nurse Manager (Unscheduled Care Withybush)	01/02/2024	Partially complete
Health Board to look into working with organisations such as Friends of Pembrokeshire Hospital to provide daily newspaper trolley / book exchange to help lessen boredom	MD2/1	The nursing staff will contact the Friends of Pembrokeshire Hospital to provide support y 31/12/23 The wards are provided with daily activities and by-weekly choir sessions by the Forget Me Not Chorus to entertain patients. Examples of activities will be uploaded for 2 months to provide assurance of ward diary planning for activities.	South Pems Hospital	Senior Nurse Manager (Unscheduled Care Withybush)	01/02/2024	Partially complete
Health Board to provide chairs for visitors to the wards or signage for places where chairs are kept. Settee in the TV area (Cleddau Ward) was too low, patients have difficulty rising from the settee	MD3/1	Chairs have been identified for use by visitors to the ward, and they are stored in the MDT room. The ward staff will arrange signage to identify the location of the chairs for use. Regarding the sofa, the ward patients and relatives have been asked if this is preferred, but other seating options will be available. Evidence of seating options to be uploaded.	South Pems Hospital	Senior Nurse Manager (Unscheduled Care Withybush)	31/12/2023	Fully complete (Awaiting approval)
Health Board to strengthen links with social care services, to raise awareness of patients who may have no family/extended family to help with basic needs such as providing clean nightwear/daywear and toiletries	MD4/1	Senior Nurse Manager to arrange a meeting weekly with social services to discuss discharges for patients and will raise concerns regarding patient who require specific support.	South Pems Hospital	Senior Nurse Manager (Unscheduled Care Withybush)	31/12/2023	In progress
Health Board to look into working with organisations to provide support and advice for patients with disability issues especially after a stroke. In addition to physical aspects of a stroke, support with house adaptations, benefits and patient rights	MD5/1	To ensure that stroke patients in Pembrokeshire are cared for under a highly experienced multi-disciplinary team who consider rehabilitation and patients individual needs prior to discharge which includes home adaptations via occupational therapists. Patients who require Stroke specific acute care and rehabilitation are to be managed within Withybush Hospital ward 3 from 27/11/23 onwards, however patients who require slow rehabilitation may still be admitted to South Pems Sunderland ward. All such Stroke patients are discussed in an MDT and evidence of meetings can be provided for assurance.
